

Cliff and Arlene Kindy Joyfield Farm

Cliff & Arlene began selling extra produce from their home garden through a roadside farm stand. Later, they helped start the Manchester Farmers Market which gave them another way to sell their produce. That evolved into the 2.5 acre market garden located near North Manchester, that they have today. They've owned the land for 39 years!

MEET YOUR FARMER

JOYFIELD FARM

WHAT THEY GROW:

Joyfield Farm is best known for diversity, selling over 60 different vegetables and fruits. Five unusual vegetables or fruit they grow include ground cherries, purple sweet potatoes, edamame, Mule Tail corn (a tiny popcorn), and sweet Walla Walla onions.
